

## Profile

---

*'Organizations need a solid legal framework to engage in big data. Privacy protection and data leaks are huge risks companies should mitigate in advance.'*

### **Bob Zomers**

In his capacity as a company lawyer, Bob has advised several companies and organizations, providing practical legal advice. He has experience with different aspects of private law, such as privacy, IE, real estate and contract law.

During his career, Bob has worked for several major international companies as an interim legal counsel. During his study he gained experience at a law firm and at the Dutch Arbitration Council for Construction Law.

Bob is a passionate lawyer who excels in an environment where business and legal meet.
